DATA STORAGE CORPORATION AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
SIX MONTHS ENDED JUNE 30, 2012 AND 2011

Note 1 - Basis of presentation, organization and other matters

Data Storage Corporation, (the "Company" or "DSC") provides Hybrid Cloud solutions and services as the result of several transactions: a share exchange with Euro Trend Inc. incorporated on March 27, 2007 under the laws of the State of Nevada; Ownership of DSC incorporated in 2001; and an Asset Acquisition from SafeData LLC in 2010. On October 20, 2008 we completed a Share Exchange Agreement whereby we acquired all of the outstanding capital stock and ownership interests of Data Storage Corporation. In exchange we issued 13,357,143 shares of our common stock to the Data Storage Corporation's shareholders, a cloud storage and SaaS organization, providing services for disaster recovery. This transaction was accounted for as a reverse merger for accounting purposes. Accordingly, Data Storage Corporation, the accounting acquirer, is regarded as the predecessor entity. On June 17, 2010 we entered into an Asset Purchase Agreement with SafeData, a provider of Cloud Storage and Cloud Computing mostly to IBM's Mid-Range Equipment users, namely, AS400 and iSeries users under which we acquired all right, title and interest in the end user customer base of SafeData and all related current and fixed assets and contracts including the transfer of all of SafeData's current liabilities arising out of the business or the assets acquired. Pursuant to the Agreement, we paid an aggregate purchase price equal to \$3,000,000. Giving effect to certain holdback and contingency clauses as defined in the agreement, we paid \$1,229,952 in cash and \$850,000 in shares of our common stock as well as assumption of SafeData Accounts Payable and Receivables.

The Company was incorporated in Delaware on August 29, 2001. The Company is a provider of data backup services. The Company specializes in secure disk-to-disk data backup and restoration solutions for disaster recovery, business continuity, and regulatory compliance.

Condensed Consolidated Financial Statements

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, all normal recurring adjustments considered necessary for a fair presentation of the results of operations have been included. The results of operations for the six months ended June 30, 2012 are not necessarily indicative of the results of operations for the full year. When reading the financial information contained in this Quarterly Report, reference should be made to the financial statements, schedule and notes contained in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

Liquidity

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. For the six months ended June 30, 2012, the Company has generated revenues of \$1,984,064 but has incurred a net loss of \$1,340,449. Its ability to continue as a going concern is dependent upon achieving sales growth, reduction of operation expenses and ability of the Company to obtain the necessary financing to meet its obligations and pay its liabilities arising from normal business operations when they come due, and upon profitable operations. The Company has been funded by the Chief Executive Officer ("CEO") and largest shareholder since inception as well as several Directors. It is the intention of Charles Piluso to continue to fund the Company on an as needed basis.

Note 2 - Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of the Company and its subsidiary, Data Storage Corporation, a Delaware Corporation. All significant inter-company transactions and balances have been eliminated in consolidation.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from these estimates.

Estimated Fair Value of Financial Instruments

The Company's financial instruments include cash, accounts receivable, accounts payable, line of credit and due to related parties. Management believes the estimated fair value of these accounts at June 30, 2012 approximate their carrying value as reflected in the balance sheets due to the short-term nature of these instruments or the use of market interest rates for debt instruments. The carrying values of certain of the Company's notes payable and capital lease obligations approximate their fair values based upon a comparison of the interest rate and terms of such debt given the level of risk to the rates and terms of similar debt currently available to the Company in the marketplace. It is not practical to estimate the fair value of certain notes payable, the convertible debt and the liability for contingent compensation from acquisition. In order to do so, it would be necessary to obtain an independent valuation of these unique instruments. The cost of that valuation would not be justified in light of the circumstances.

Goodwill and Other Intangibles

Goodwill is not subject to amortization and is tested for impairment annually and whenever events or changes in circumstances indicate that impairment may have occurred. Intangible assets were evaluated to determine if they are finite or indefinite-lived. The intangible assets that are finite lived are amortized over the useful life of the asset. Indefinite-lived intangible assets are also tested for impairment annually and whenever events or changes in circumstances indicate that their carrying value may not be recoverable.

Revenue Recognition

The Company's revenues consist principally of cloud storage and cloud computing revenues, SaaS and IaaS. Storage revenues consist of monthly charges related to the storage of materials or data (generally on a per unit basis). Sales are generally recorded in the month the service is provided. For customers who are billed on an annual basis, deferred revenue is recorded and amortized over the life of the contract. Set up fees charged in connection with storage contracts are deferred and recognized on a straight line basis over the life of the contract.

Net Income (Loss) per Common Share

In accordance with FASB ASC 260-10-5 Earnings Per Share, basic income (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is computed by dividing net income (loss) adjusted for income or loss that would result from the assumed conversion of potential common shares from contracts that may be settled in stock or cash by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during each period. The inclusion of the potential common shares to be issued have an anti-dilutive effect on diluted loss per share and therefore they are not included in the calculation. Potentially dilutive securities at June 30, 2012 include 3,703,476 options and 28,642 warrants.

For the six months ended June 30, 2011, The Company had one customer that represented approximately 10.8% of sales.

The 2008 Plan is administered by the Board. Awards may be granted pursuant to the 2008 Plan for 10 years from the date the Board approved the 2008 Plan. Any grant under the 2008 Plan may be repriced, replaced or regranted at the discretion of the Board. From time to time, we may issue awards pursuant to the 2008 Plan.

The material terms of options granted under the 2008 Plan (all of which have been nonqualified stock options) are consistent with the terms described in the footnotes to the "Outstanding Equity Awards at Fiscal Year-End December 31, 2011", including 5 year graded vesting schedules and exercise prices equal to the fair market value of our common stock on the date of grant. Stock grants made under the 2008 Plan have not been subject to vesting requirements. The 2008 Plan was terminated with respect to the issuance of new awards as of February 3, 2012. There are 2,563,115 options outstanding under this plan as of June 30, 2012.

2010 Incentive Award Plan

The Company has reserved 2,000,000 shares of common stock for issuance under the terms of the Data Storage Corporation 2010 Incentive Award Plan (the "2010 Plan"). The 2010 Plan is intended to promote the interests of the Company by attracting and retaining exceptional employees, consultants, directors, officers and independent contractors (collectively referred to as the "Participants"), and enabling such Participants to participate in the long-term growth and financial success of the Company. Under the 2010 Plan, the Company may grant stock options, which are intended to qualify as "incentive stock options" under Section 422 of the Internal Revenue Code of 1986, as amended, non-qualified stock options, stock appreciation rights and restricted stock awards, which are restricted shares of common stock (collectively referred to as "Incentive Awards"). Incentive Awards may be granted pursuant to the 2010 Plan for 10 years from the Effective Date. From time to time, we may issue Incentive Awards pursuant to the 2010 Plan. Each of the awards will be evidenced by and issued under a written agreement.

On April 23, 2012, the Board of Directors of the Company amended and restated the Data Storage Corporation 2010 Plan. The 2010 Plan, as amended and restated, has been renamed the "Amended and Restated Data Storage Corporation Incentive Award Plan". The new plan provides for flexibility in vesting periods and includes a limit of \$100,000 per employee per year for incentive stock options

There are 1,140,361 options outstanding under this plan as of June 30, 2012.

A summary of the Company's option activity and related information follows:

	Number of Shares Under Options	Range of Option Price Per Share	Weighted Average Exercise Price
Options Outstanding at January 1, 2012	2,563,115	\$ 0.02 - 0.85	\$ 0.31

Share-based compensation expense for options totaling \$169,016 and \$31,960 was recognized in our results for the six months ended June 30, 2012 and 2011, respectively is based on awards vested.

The valuation methodology used to determine the fair value of the options issued during the year was the Black-Scholes option-pricing model. The Black-Scholes model requires the use of a number of assumptions including volatility of the stock price, the average risk-free interest rate, and the weighted average expected life of the options.

The risk-free interest rate assumption is based upon observed interest rates on zero coupon U.S. Treasury bonds whose maturity period is appropriate for the term of the Warrants and is calculated by using the average daily historical stock prices through the day preceding the grant date.

Estimated volatility is a measure of the amount by which the Company's stock price is expected to fluctuate each year during the expected life of the award. The Company's estimated volatility is an average of the historical volatility of peer entities whose stock prices were publicly available. The Company's calculation of estimated volatility is based on historical stock prices of these peer entities over a period equal to the expected life of the awards. The Company uses the historical volatility of peer entities due to the lack of sufficient historical data of its stock price.

The weighted average fair value of options granted and the assumptions used in the Black-Scholes model during the six months ended June 30, 2011 are set forth in the table below.

	2012	2011
Weighted average fair value of options granted	\$ 0.39	\$ 0.35
Risk-free interest rate	1.59%	2.54 - 3.57%
Volatility	98.00%	77.45 - 117.62%
Expected life (years)	10	10

As of June 30, 2012, there was \$361,598 of total unrecognized compensation expense related to unvested employee options granted under the Company's share based compensation plans that is expected to be recognized over a weighted average period of approximately 2.7 years.

LIQUIDITY AND CAPITAL RESOURCES

The financial statements have been prepared using accounting principles generally accepted in the United States of America applicable for a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. The Company has been funded by the CEO and largest shareholder combined with private placements of the Company's stock. The Company has been successful in raising money as needed. Further it is the intention of management to continue to raise money through stock issuances and to fund the Company on an as needed basis. In 2012 we intend to continue to work to increase our presence in the IBM marketplace utilizing our increased technical expertise, capacity for data storage and managed services with our asset acquisition of SafeData.

To the extent we are successful in growing our business, identifying potential acquisition targets and negotiating the terms of such acquisition, and the purchase price includes a cash component, we plan to use our working capital and the proceeds of any financing to finance such acquisition costs. Our opinion concerning our liquidity is based on current information. If this information proves to be inaccurate, or if circumstances change, we may not be able to meet our liquidity needs.

During the six months ended June 30, 2012 the Company's cash decreased \$125,774 to \$42,716 from \$168,490 at December 31, 2011. Net cash of \$557,496 was used in the Company's operating activities and cash of \$68,769 was used in investing activities, primarily funding capital expenditures. Net cash of \$500,491 was provided by the Company's financing activities, primarily due to the issuance of convertible debt of \$500,000 and officer advances of \$115,274 offset by capital lease and loan payments of \$114,783.

The Company's working capital deficiency was \$2,551,418 at June 30, 2012, increasing \$269,640 from \$2,281,778 at December 31, 2011. The increase is primarily due to the reduction in cash and new capital lease acquisitions.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

The Company is subject to certain market risks, including changes in interest rates and currency exchange rates. The Company does not undertake any specific actions to limit those exposures.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures. Pursuant to Rule 13a-15(b) under the Securities Exchange Act of 1934 (“Exchange Act”), the Company carried out an evaluation, with the participation of the Company’s management, including the Company’s Chief Executive Officer and Chief Financial Officer (“CFO”) (the Company’s principal financial and accounting officer), of the effectiveness of the Company’s disclosure controls and procedures (as defined under Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. The Company lacks the size and complexity to segregate duties sufficiently for proper controls. Based upon that evaluation, the Company’s CEO and CFO concluded that the Company’s disclosure controls and procedures are not effective to ensure that information required to be disclosed by the Company in the reports that the Company files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to the Company’s management, including the Company’s CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.
