#### DTST Reports 2025 Second Quarter Financial Results and Provides Business Update

Conference Call to be Held Today at 11:00 am ET

MELVILLE, N.Y., August 14, 2025 (GLOBE NEWSWIRE) — Data Storage Corporation (Nasdaq: DTST) (the "Company"), today provided a business update and reported financial results for the three months and six months ended June 30, 2025.

#### Second Quarter 2025 Highlights:

- Revenue was \$5.1 million, up 4.8% from the same period in 2024, driven by continued growth in subscription-based cloud and Nexxis services
- Gross profit totaled \$2.5 million, maintaining consistent margin levels
- Cash and marketable securities were \$11.1 million, with no long term debt

"We continue to see strong growth in our core business, particularly in our higher-margin, recurring subscription sales," said Chuck Piluso, Chairman and Chief Executive Officer of Data Storage Corporation. "Building on this momentum, a central development is the proposed \$40 million sale of CloudFirst Technologies Corporation, representing a substantial premium to our market capitalization prior to the announcement. If the transaction is approved by our shareholders and we consummate the transaction, we anticipate net proceeds of approximately \$24 million, after fees, taxes, and other adjustments."

"In connection with the proposed transaction if approved by our shareholders and consummated, our Board of Directors has authorized a tender offer to repurchase up to 85% of our outstanding common stock, using 85% of cash on hand at the time the tender offer is commenced. This cash on hand will include net proceeds from the proposed transaction. This structure is intended to deliver a meaningful return of capital to shareholders while retaining 15% of cash for acquisitions, innovation, and expansion."

"CloudFirst has delivered consistent year-over-year EBITDA growth and remains a valuable business. Assuming approval by our shareholders, we expect the proposed transaction to unlock this value, convert it into tangible returns, and allow us to focus resources on high-growth technology sectors such as, but not limited to, artificial intelligence, cybersecurity, and AI vertical SaaS. If the proposed transaction is not approved by our shareholders, CloudFirst will remain a core part of our operations, and we will continue to invest in its performance while pursuing new strategic opportunities."

"Regardless of the outcome, our long-term plan is clear: to continue evolving Data Storage Corporation into a technology-driven enterprise that capitalizes on market trends and emerging opportunities. As part of this transformation, we are evaluating a full corporate rebranding to align our identity with our strategic direction. We will also continue to operate Nexxis Inc. as a portfolio asset and seek opportunities where our operational expertise can unlock additional value."

"The proposed sale of CloudFirst Technologies Corporation is subject to shareholder approval at our annual meeting scheduled to be held on September 10, 2025. We encourage all shareholders to review the proxy materials, which detail the transaction terms, the Board's rationale, and our broader growth strategy," concluded Mr. Piluso.

Chris Panagiotakos, Chief Financial Officer of Data Storage Corporation, added, "In the second quarter, we delivered total sales of \$5.1 million, up 4.8% from last year, driven by continued growth in our subscription-based cloud and Nexxis services, partially offset by lower equipment and software sales. For the first half of 2025, sales totaled \$13.2 million, reflecting strength in recurring revenue despite declines in non-recurring equipment sales. We ended the quarter with \$11.1 million in cash, and marketable securities, providing a solid liquidity position to fund our strategic growth initiatives."
